FREE SAMPLES

Find a few films you like? Order free 5"x7" samples directly from each product page. See page 7 for more details, and to order multiple samples at a time.

CREATE AN ACCOUNT

Decorative Films is your project partner. Create an account to organize different projects easily, build a wish list of favorite films, order samples, and reorder quickly. See page 6 for more details.

SHIPPING + AVAILABILITY

From skyscrapers to single windows, there's no limit to what we'll do for our customers. All films are kept in stock and ready to ship worldwide out of our Maryland warehouse. Most orders ship within 24 hours of order receipt.

WARRANTY

We offer an industry-leading warranty program that guarantees our products with every purchase. Warranty coverage varies by product and application, with some warranties extending up to 10 years with proof of purchase.

GLOBAL DEALER MAP

Are you an installer or window film professional looking to connect with Decorative Films customers in your area? Visit decorativefilm.com/find-an-installer or scan the QR code on page 7 to add your business to our interactive dealer map.

SUSTAINABILITY

Our mission is to lead the industry in exceptional quality window film innovation while advancing sustainability and responsible manufacturing at every stage of production. Our team is continually exploring and experimenting with new technologies that improve product performance and reduce carbon emissions, without compromising quality—like our UltraGreen® line, which utilizes PVC-free base materials and a sustainable adhesive coating to eliminate VOC-waste and red-listed chemicals from the production line.

All Solyx films are proudly Clean Air Gold Certified, recognizing low-VOC ratings that contribute to healthier indoor environments. Go to page 10 for more information, or visit decorativefilm.com/sustainability.

Look for these sustainability markers on films featured in this book:

UltraGreen®

FROSTED &

DESIGN-FREE

Explore timeless solutions with clean, professional finishes in the Frosted & Design-Free Catalog by Decorative Films. Featuring a thoughtfully curated selection of physical product samples, the films featured in this book offer subtle privacy solutions that celebrate natural light without the visual complexity and distraction of patterned surfaces.

Ideal for conference rooms, glass partitions, entryways, and anywhere elegant privacy is needed, these classic designs offer a sophisticated solution adaptable for any space while complementing existing interior design elements. The featured films provide versatile privacy solutions that employ soft, opaque finishes, vibrant and harmonious colors, and distinctive textures. When customized, their adaptability knows no bounds, serving as a starting point in exploring one-of-a-kind film solutions that can be infinitely redesigned.

Celebrate film's functionality, adaptability, and enduring versatility with frosted and design-free architectural solutions by Decorative Films.

The most versatile solution for all your specifying needs.

Decorative privacy window films are an energy-efficient, cost-effective, and versatile solution for controlling light filtration, offering surface protection, providing privacy, and ensuring peace of mind. Our unique and intelligent designs and functional products provide safe solutions for schools, healthcare facilities, major transportation hubs, and more. Whether you're retrofitting a current building or working with new construction, our decorative privacy window films offer flexible and cost-saving solutions to common design needs for interior and exterior installation. With over 700 skus and endless custom design opportunities, our product applications are limitless. Look no further than film for your architectural and design needs.

At Decorative Films, we pride ourselves on being an industry leader in the manufacturing and distribution of window films for various applications such as design, solar control, sustainability, and privacy. Family-founded with over 40 years of experience, our business has served residential and professional customers in the glass coating and solar control window tinting industries since 1979. Our trusted brands, including SOLYX®, SimGlass®, UltraCool®, UltraSafe®, UltraGreen®, and UltraGlare® films, provide affordable, approachable solutions to common architectural and design requests.

Decorative Films is renowned for delivering remarkable product quality and unparalleled customer support. With a sales and installation network of over 2,850 dealers throughout the USA, as well as major global distributors in Europe, the Middle East, Italy, India, and Australia, our team is devoted to product innovation, upholding high-quality standards, manufacturing efficiency, and providing a diverse product lineup. Our reputation precedes us as a leader in privacy window film solutions, offering various applications and made-to-order designs that cater to the varied needs of our customers. This is exemplified by our extensive portfolio of products, consistent stock position of more than 50,000 rolls of ready-to-ship film, and a noteworthy customer list, including household names like Microsoft, Apple, Walmart, Bank of America, ABC, Fox, and Disney.

No matter what your solar control, privacy, or design challenge may be, whether you're seeking solutions for new construction, retrofitting, or renovations, we are confident that our films can provide the solution you need. Our films offer year-round beauty, lifelong durability, and nearly limitless design possibilities— all delivered quickly and with cost-effective pricing. At Decorative Films, we see windows in a whole new light. And decade after decade, we're working hard to help our customers do the same.

Decorative Films is proudly USA-designed and manufactured, with an extensive selection of products solely fabricated and fulfilled from its headquarters in Frederick, Maryland. Our company exists largely to support the amazing, hardworking team behind the scenes in our warehouses, offices, and production lines. Every order received contributes to the prosperity of our employees and their family members. We know you have a choice of where you shop and specify; thank you for supporting our team and trusting us with your decorative privacy needs.

SPECIFYING & ORDERING FILM

HOW TO USE THIS BOOK

Enclosed are the top-selling patterns in our Frosted & Design-Free Collection. Samples of these films are mounted between the pages, offering a visual representation of each product's unique opacity, finish, and feel. The pocket featured in the back of the book offers a convenient place for storing samples of frosted and design-free films, available for order at no cost from decorativefilm.com. To view our full collection, please visit decorativefilm.com/frosted-design-free or scan the QR code below. To request additional books featuring our other window film categories or to view our collection catalogs digitally, please visit <https://www.decorativefilm.com/accessories-solyx-catalogs>.

SETTING UP AN ACCOUNT

With a free Decorative Films trade account, industry professionals can take advantage of free samples, custom pricing, and more. Visit decorativefilm.com/login or scan the QR code below and choose "sign up for a free wholesale or trade account" to register as an installing dealer, architect, designer, sign and graphics vendor, or other related trade business. After our team approves your request, you'll gain access to free samples with free sample shipping, custom product pricing, product and service information, and more. Residential customers can also register for a free account using this login page.

CHECKING SPECS + SPECIFYING FILM

We're here to make specifying as simple and streamlined as possible. All films' full specifications and technical data are available online. For film costs, opacity, durability, fire ratings, size options, and more, review the individual product pages at DecorativeFilm.com. If you can't find what you need on our site or would like to place a custom film order, contact our dedicated support team at info@decorativefilm.com or by phone at 888-657-5224 x1.

CONNECT WITH OUR TEAM

We love working directly with design professionals like you. Our dedicated sales team offers installing dealer trainings, product showcases, CE Courses for the design community, and other resources designed to connect your business with our products. For more details, visit our professional design customer resources page at decorativefilm.com/professionals-and-dealers or by scanning the QR code below.

▲ To set up a free account, visit tinyurl.com/decfilmstrade

▲ Dealer Resources at tinyurl.com/dec-film-resources

▲ Connect with us at decorativefilm.com/contact-us

Ordering Samples

We understand that our customers' time is valuable, and a quick turnaround can be the deciding factor in winning a project bid. That's why we offer professional and industry customers 5"x7" product samples and expedited 2-day shipping at no charge. For everyone else, we offer the first five samples free, with discounted priority shipping rates.

Professional and residential customers with an existing Decorative Films account can order product samples with standard or expedited shipping rates directly from our product pages.

Design professionals without an account can order free samples with free 2-day shipping at info.decorativefilm.com/architect-designer-sample-request, or by scanning the QR code below.

Ready To Order?

▲ To browse our products and place an order, visit DecorativeFilm.com

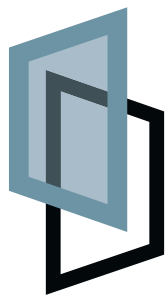

▲ Architects and designers can order samples at tinyurl.com/decfilmsamples

▲ Watch our installation tutorials at tinyurl.com/solyx-install

▲ Get connected with installers in your area or update your listing at tinyurl.com/solyx-installers

DESIGNSTUDIO

BY DECORATIVE FILMS

CUSTOM GLASS FILM, REIMAGINED.

At Decorative Films, we understand that some spaces call for something truly special. For over 15 years, our custom film service — **formerly known as Solyx iQ** — has empowered designers and glass film installers to create one-of-a-kind solutions that go far beyond our standard products. Our trusted team continues to deliver the same exceptional service for custom films, but under a new name — **Design Studio by Decorative Films**.

With Design Studio, your vision is brought to life through custom gradients, murals, and repeatable patterns, each designed and manufactured uniquely to your order. Whether you're looking to add privacy, bold branding, or modern design to your interior, our staff works with you to create film solutions that are not only visually striking, but elegantly functional.

Crafted with premium materials, short lead times, and low minimum orders, every Design Studio project delivers unmatched quality and service — all while providing an experience that is truly unique and authentic to your own design.

Learn more and get started on your custom window film order at

MURALS

REPEATABLE

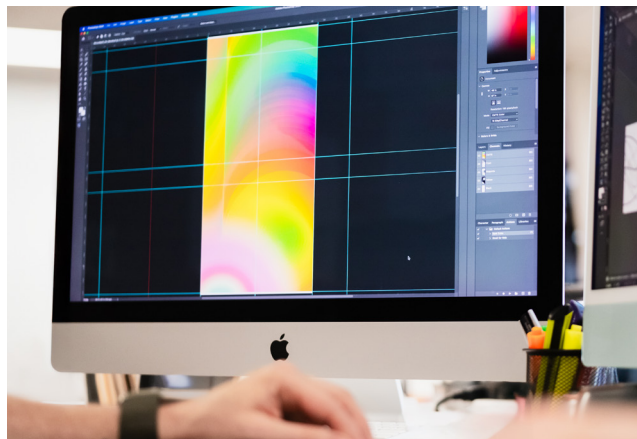

Any Request, Every Budget

- **Extended Warranty:** All Design Studio projects come with a 10-year commercial warranty for interior applications.
- **Cost-Effective:** Create bespoke designs for a fraction of the cost of custom glass or window shades, without compromising quality or style.
- **Fast Turnaround:** Our facilities can produce more than 15,000 square feet of custom-printed film on a given day, meaning lead times for most projects are days, not weeks.
- **Surface Protection:** Protect what matters most with features like UV coatings and shatter-resistant safety films.
- **Non-Invasive:** Our films have a clean, removable adhesive system, safe for any interior glass surface.
- **Easy Retrofit & Install:** Custom films are long-lasting and easy to install, making them a perfect solution for retrofitting spaces with designs that can be replaced or redesigned later.
- **Optical Clarity** - Unlike the competition, our base films are made of optically clear, sustainable polyester—not vinyl—ensuring your design has a crystal-clear finish.
- **Exceptional Support:** Our in-house art department offers design and specification expertise every step of the way.

A PARTNERSHIP IN INNOVATIVE DESIGN

Whether it's custom branding or a creative vision brought to life, we're here to design something extraordinary for your client. Share your project details and request a quote at designstudio.decorativefilm.com to get started.

A TRUSTED NAME IN THE INDUSTRY.

We have a vast client base spanning several industries. Here are a few of our trusted partners:

SUSTAINABILITY

We believe that building design should harmonize sustainability, functionality, durability, and beauty in equal measure. Our films embody this philosophy by providing long-lasting, cost-effective solutions that enhance and extend the life of glass surfaces.

- Contributing to **healthy environments** with the elimination of harmful VOC chemicals from products and the production line.
- **Supporting domestic production** with all films manufactured from our Maryland warehouse.
- **Minimizing waste** by repurposing scrap film for our sample program.
- All Solyx films are **Intertex Clean Air GOLD Certified**.
- Whenever possible, we manufacture our products on a **PVC-free film** that offers a more sustainable solution to vinyl films.
- Collaborating with architects and designers on **adaptive retrofit solutions** that provide affordable alternatives to replacing interior and exterior glass surfaces.

LEED Contributions (LEEDv5)

Waste reduction and responsible manufacturing drive our business forward at every step, from sampling and design to production and installation.

Explore some of the LEED credits commonly awarded for window film applications below. For assistance in identifying how our products can contribute to your LEED credit goals, please contact our customer support team at info@decorativefilm.com.

Low-Emitting Materials (2 Points)

All products meet Intertek Clean Air Gold Standard requirements, verified to have very low VOC emissions that contribute to improved indoor environmental quality, health, and comfort.

UltraGreen®

The UltraGreen Collection by Decorative Films harnesses sustainable VOC-free coating technology and eco-friendly PVC-free materials to eliminate red-listed volatile organic compound (VOC) waste from the production line. Look for the logo on products in this catalog or shop online at tinyurl.com/solyx-ultragreen

Building and Materials Reuse (3 Points)

Retrofitting existing glass with film reduces materials use for an overall more sustainable project.

Building Production Selection and Procurement (5 Points)

Crafted from PVC-free polyester, our Ultra Green Collection is produced using a solvent-free finishing process that eliminates VOC waste and supports cleaner, more sustainable manufacturing

All Solyx films are Intertek Clean Air Gold Certified

The logo for Decorative Films, featuring the word "decorative" in a dark grey sans-serif font, "films" in an orange sans-serif font, and a small icon of two overlapping squares (one grey, one orange) to the right.

Frosted & Design-Free

Decorative Films offers the industry's largest selection of frosted and design-free films. Explore best-sellers and experience our films first-hand in these featured product categories:

Frosted

Create spaces with timeless appeal and exceptional versatility using our collection of frosted films, offering a wide range of privacy levels, light filtration options, and refined finishes to suit the needs of any environment.

Light-Diffusing & Opaque

Light-diffusing and opaque films are ideal for spaces that prioritize privacy or require controlled light filtration. These functional, solutions transform clear glass into beautifully finished surfaces that deliver optimal privacy and a clean, cohesive appearance.

Colored

Add vibrant, dynamic visual impact to glass surfaces with Solyx colored films—from bold accents to subtle tones that elevate any space. Choose from more than 50 hues featured here, or create your own through our custom color-matching services.
